

Coronavirus Update and Action Plan

Wrapping up the final week of April, the country has seen a steady decline in confirmed cases; 106 confirmed cases in the ACT and 3004 in NSW

Moving into May we could see reductions in restrictions, but this is not a time to be complacent. Stay mindful of your environments and continue to support each other as always.

COVIDSafe Application

Last night the Australian Government released COVIDSafe, an application easily downloaded to your phone; This app plans to reduce the wait time between being exposed to COVID-19 and being notified.

The COVIDSafe app speeds up the current manual process of finding people who have been in close contact with someone with COVID-19. This means you'll be contacted more quickly if you are at risk. This reduces the chances of you passing on the virus to your family, friends and other people in the community.

This application **MUST** be downloaded to all Form1 company phones and phones which are being used for company purposes.

How to Download...

Search COVID Safe in your app store | Enter your details | Keep the App running in the background
